Yourhub ADSL Naked service requires an ADSL modem or router at your premises to function. You can purchase an ADSL router through us - please refer to [www.yourhub.com.au/hardware](http://www.yourhub.com.au/hardware) for details - or alternatively source your own hardware. Yourhub sell and support a range of Netcom firewall routers; and include one splitter/filter with each purchase.

If you have ordered hardware, please ensure that you have provided a suitable daytime delivery address, as the courier will require a signature upon delivery. If there is no-one available to sign for the delivery, a card will be left and the parcel redirected to the nearest collection depot; and an additional \$25 delivery charge will be applied. We therefore recommend delivery to a work address, if this is more convenient (please document below if required):
